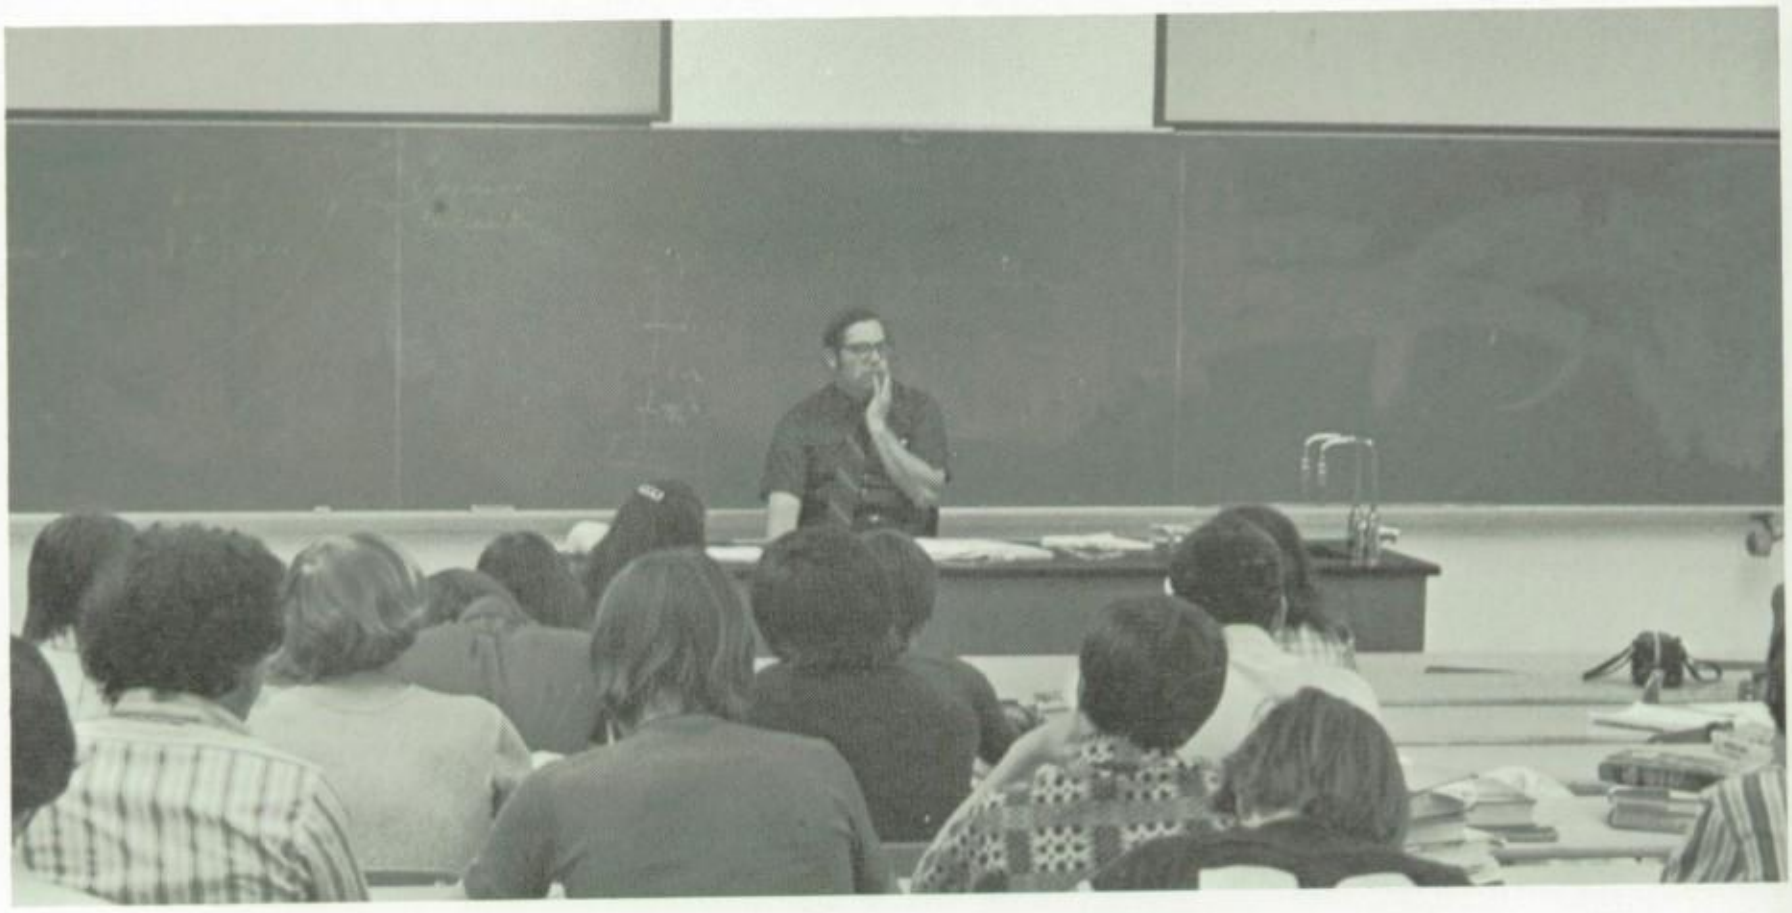
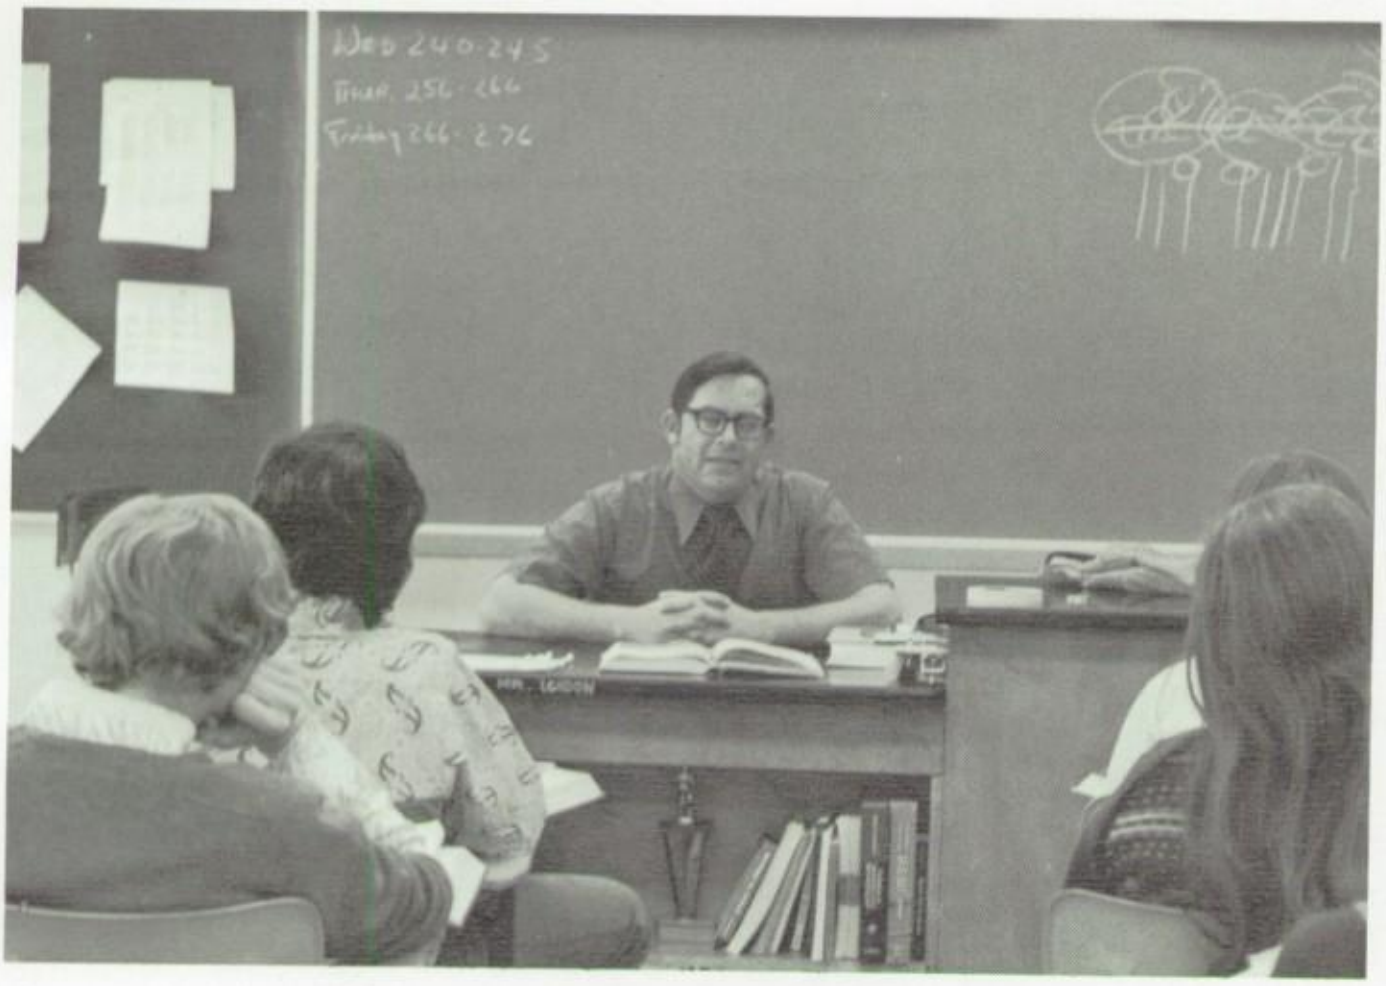
In looking back on a school year, one can never forget little things that went into that year. By adding a few of these small details a yearbook can be more than just a book of ordinary pictures. In trying to represent the motivating forces behind the students, it can become the mirror of your memory.

Nature and the union of Mind, Body, and Soul seemed to be the influential stimuli that helped to make the Class 1973 individual.

This book is our attempt to appeal to your sense of beauty. It is our belief that Nature can be and is found in all things in life. Even in the cold gray confines of cement walls. Nature exists. It is our hope that in ten years or even twenty years from now the styles, the activities and most of all the friends you had here will be reflected in the mirror of your memory.



dedication



These past few years have seen an awakening. An awakening to beauty and to nature. Getting back to the basics of beauty — which is Nature itself. The staff has tried to make the 1973 *Crier* reflect this movement. And now, having finished, we dedicate our book to Mr. James Lendon.

Much can be said about the quality of teaching Mr. Lendon has performed in the last ten years. But one quality that makes a man a fine human being often goes unnoticed. That is being a friend.

A kind word or a smile by a teacher does more to make a student feel like a real person than any thing else. These qualities are clearly represented by you, Mr. Lendon.

For this reason, Mr. Lendon, we, the 1973 yearbook staff, are dedicating this book to you for your endeavors to make boardman High School more than an institution of learning, but rather creating an atmosphere of friendship that will exist for many more years to come.

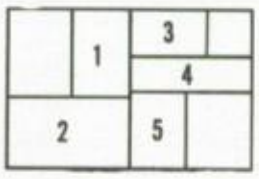
North Eastern District Tour
District Champs
North Eastern Sectional Tour
Sectional Champs

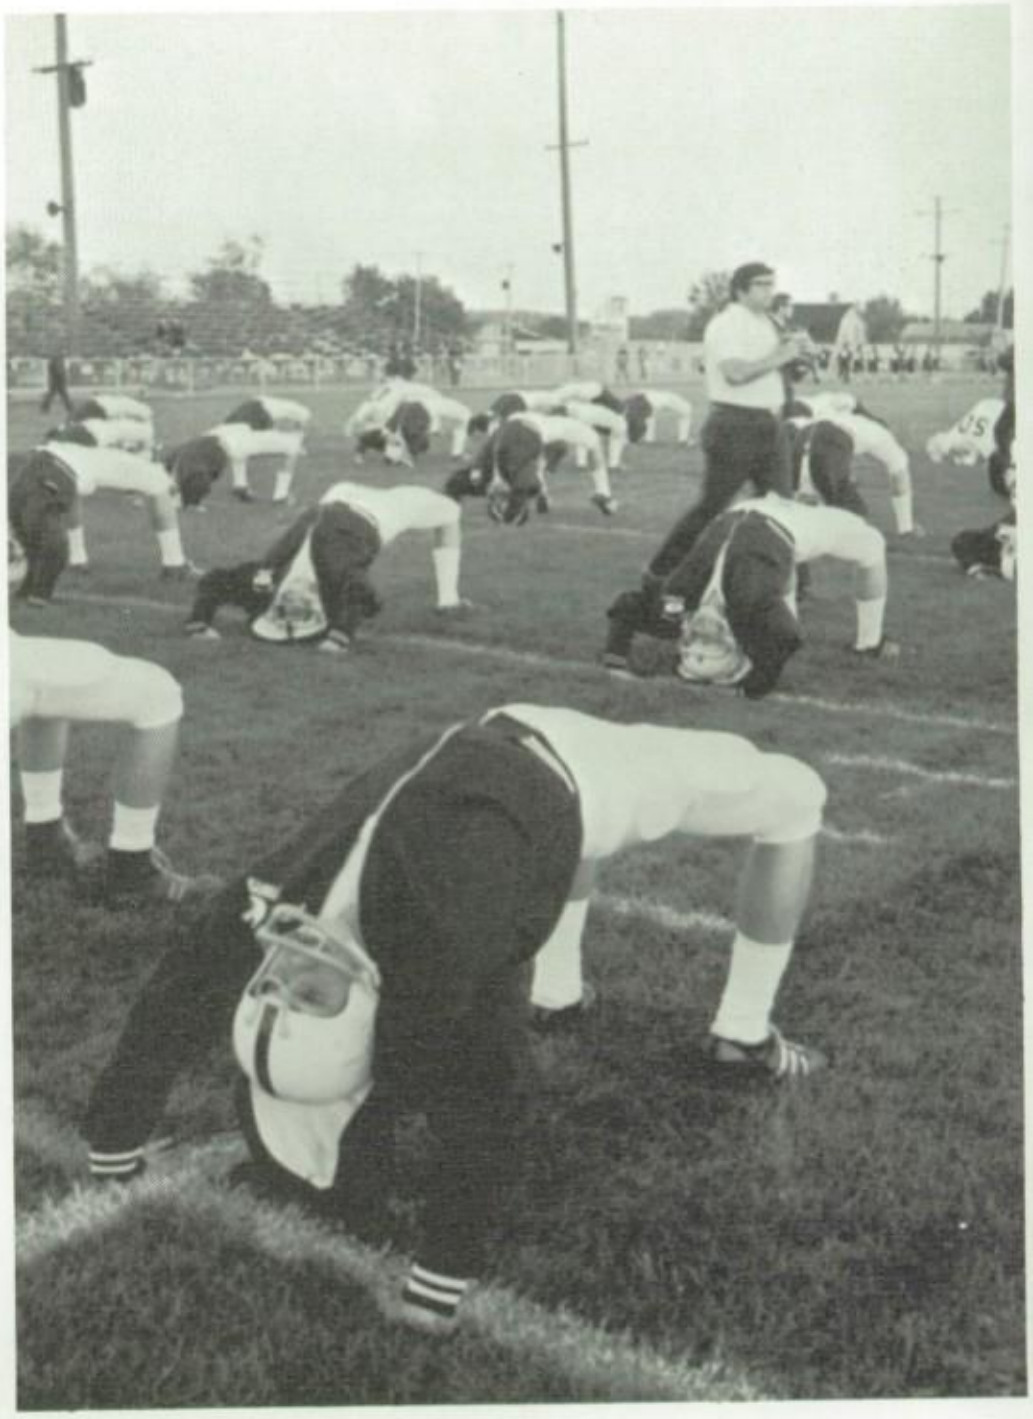
you run and you run and you run . . .
and you keep running
until you feel your body is no longer part of you
until your feet become ten pound lead weights
and your heart is pounding out of your chest.
but you keep running.
each step brings you closer to the goal you've
worked so hard and so long to reach
so you run, and you run, and you run . . .

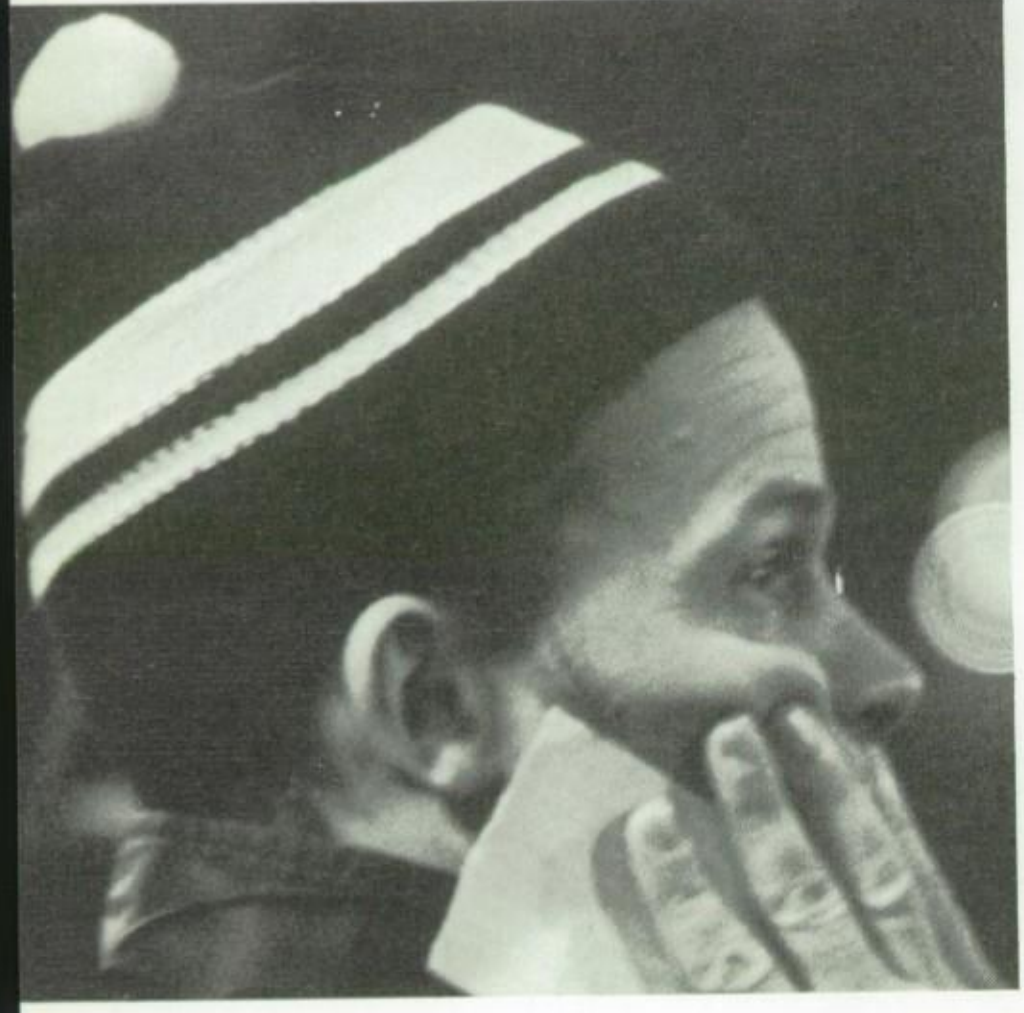
cross country

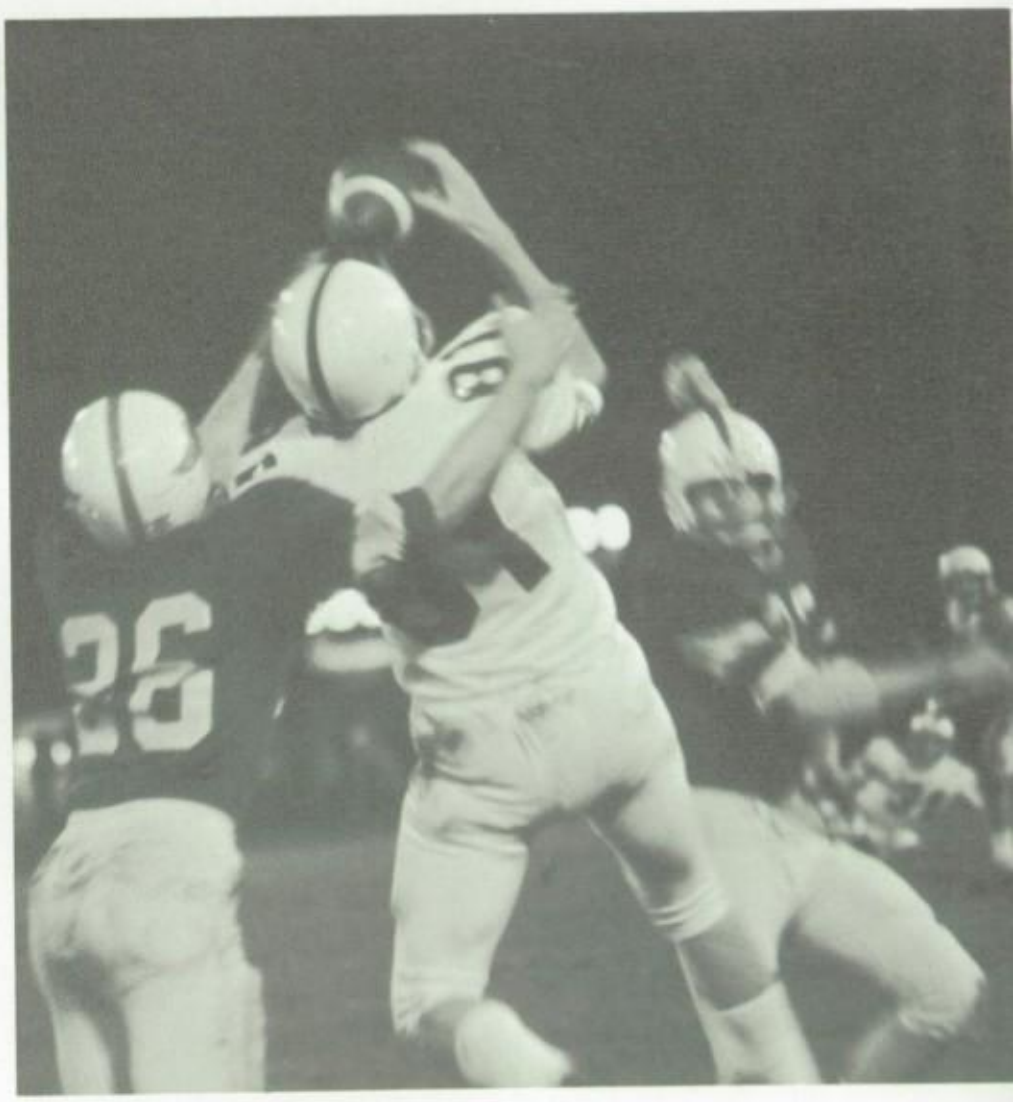


1/Coach Jerry Martin keeps close check on his runner's times at their meets.
2/*1ST ROW:* Mark Robinson, John Shaw, Fred Zable, Rick Schwartz, Jim Flick, Tom Forrestal, Dave Agostinelli, Chuck Speerbrecher, Mark Brandt. *2ND ROW:* Dave Yosua, Bill Kramer, Steve Manson, Tim Whetstone, Joe Horvath, Tom Root, Jeff Johnson, Greg Biffle, Ed DiGregorio. *3RD ROW:* Brad Kibbel, Tom Zimmerman, Bob Ernst, Max Thompson, Joe Melnick, Mark Anderson, Brian Hadley.
3/Senior Jeff Johnson and Junior Mark Anderson warm up before an important meet.
4/In a flurry of arms and legs, they're off and running.
5/Seniors Joe Horvath and Tom Zimmerman show the stamina needed to compete in a District Meet.

Some call them supermen—
stronger than steel,
no fears, many enemies (11 to be exact)
Sweat, hard work, short hair,
(sometimes ridicule from people
who don't participate)
But underneath it all is the
desire to win.







football

1/Prior to all the games, the team runs through a series of warm up exercises.
2/As head coach, Mr. Orr finds himself wrought with tension and anxiety at times.
3/Perfect timing enables sophomore Jay Sargent to complete a pass.
4/Junior Jim Potts is tackled by three members of the opposing team.
5/North Eastern Ohio team member Senior Doug Miller and Junior Don Robinson become involved with the action even from the sidelines.

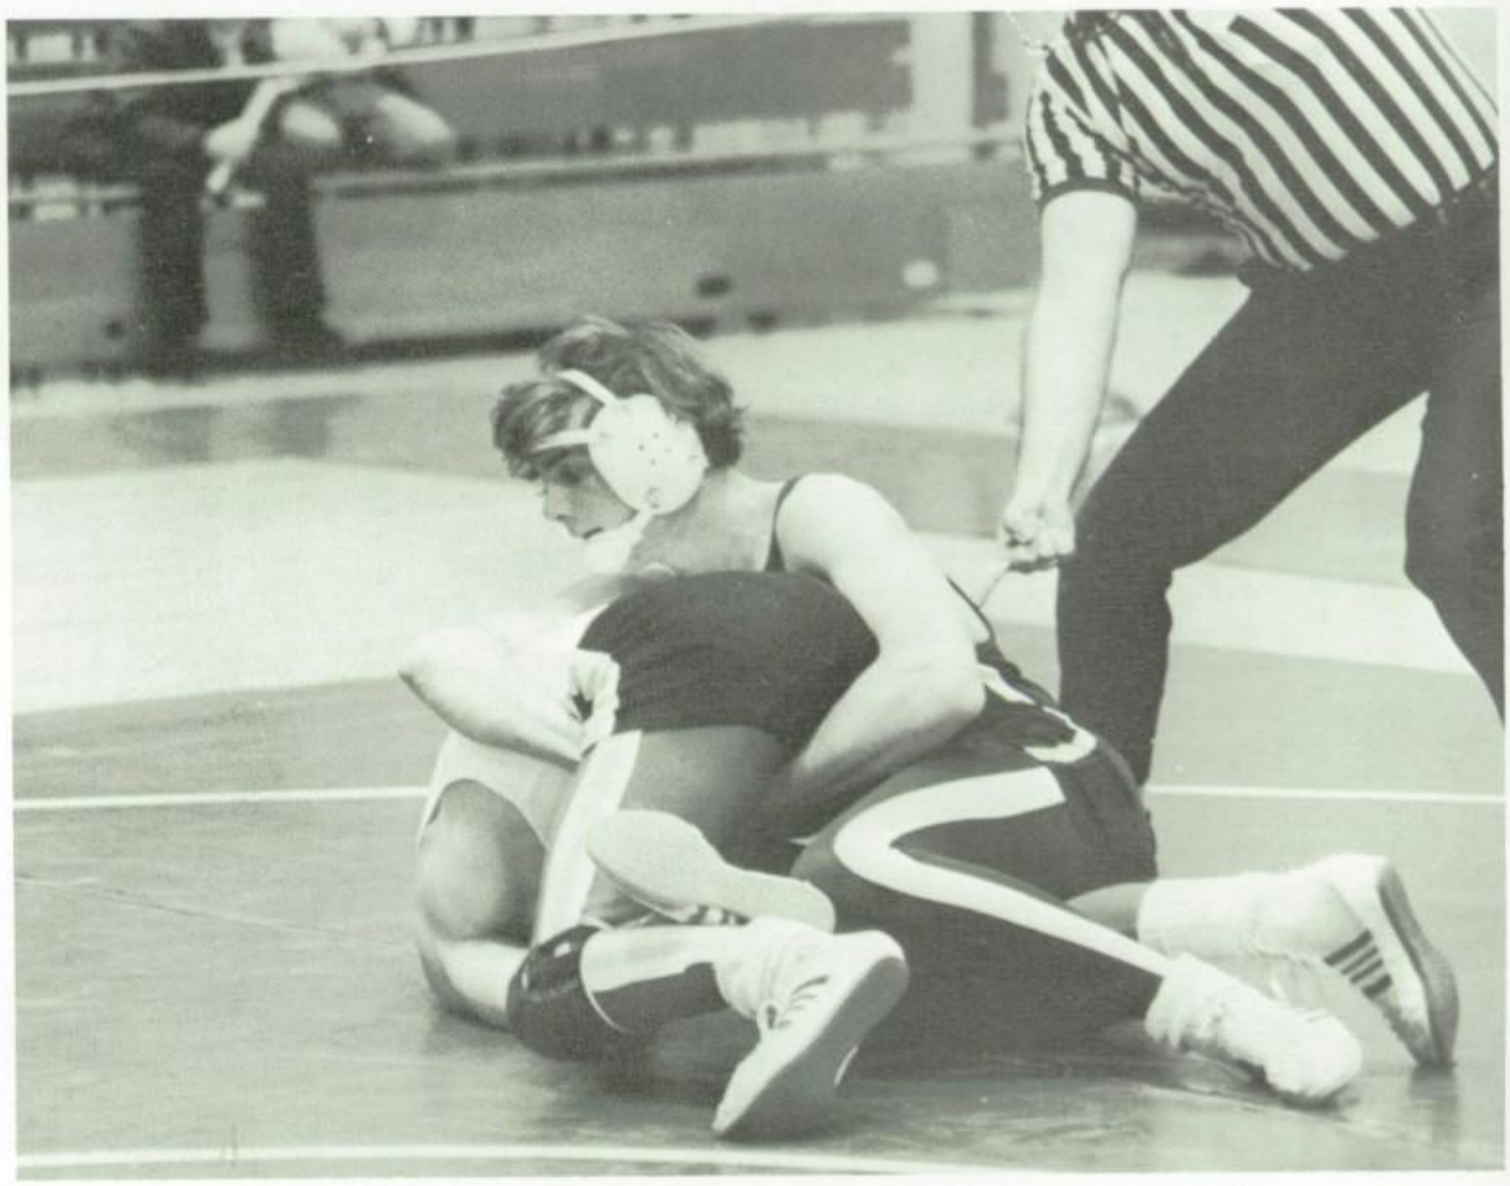
5/Kenton Thompson and Ed Estes display the teamwork that made them a winning combination.

Wrestling means . . .

Going for days without food
Carrying pictures of food in your wallet
And staring at them during classes
Sitting in a steam room sweating
Running up and down four flights of stairs
Ten times
And then . . .
Then you can weigh in
And for what?
Just to have your face ground into a mat,
Or to have your body turned into a pretzel.
All you have to worry about is pinning the other guy
First.
Because if you lose . . .
You've got to take all the blame
But when you win, the glory is all yours.



wrestling

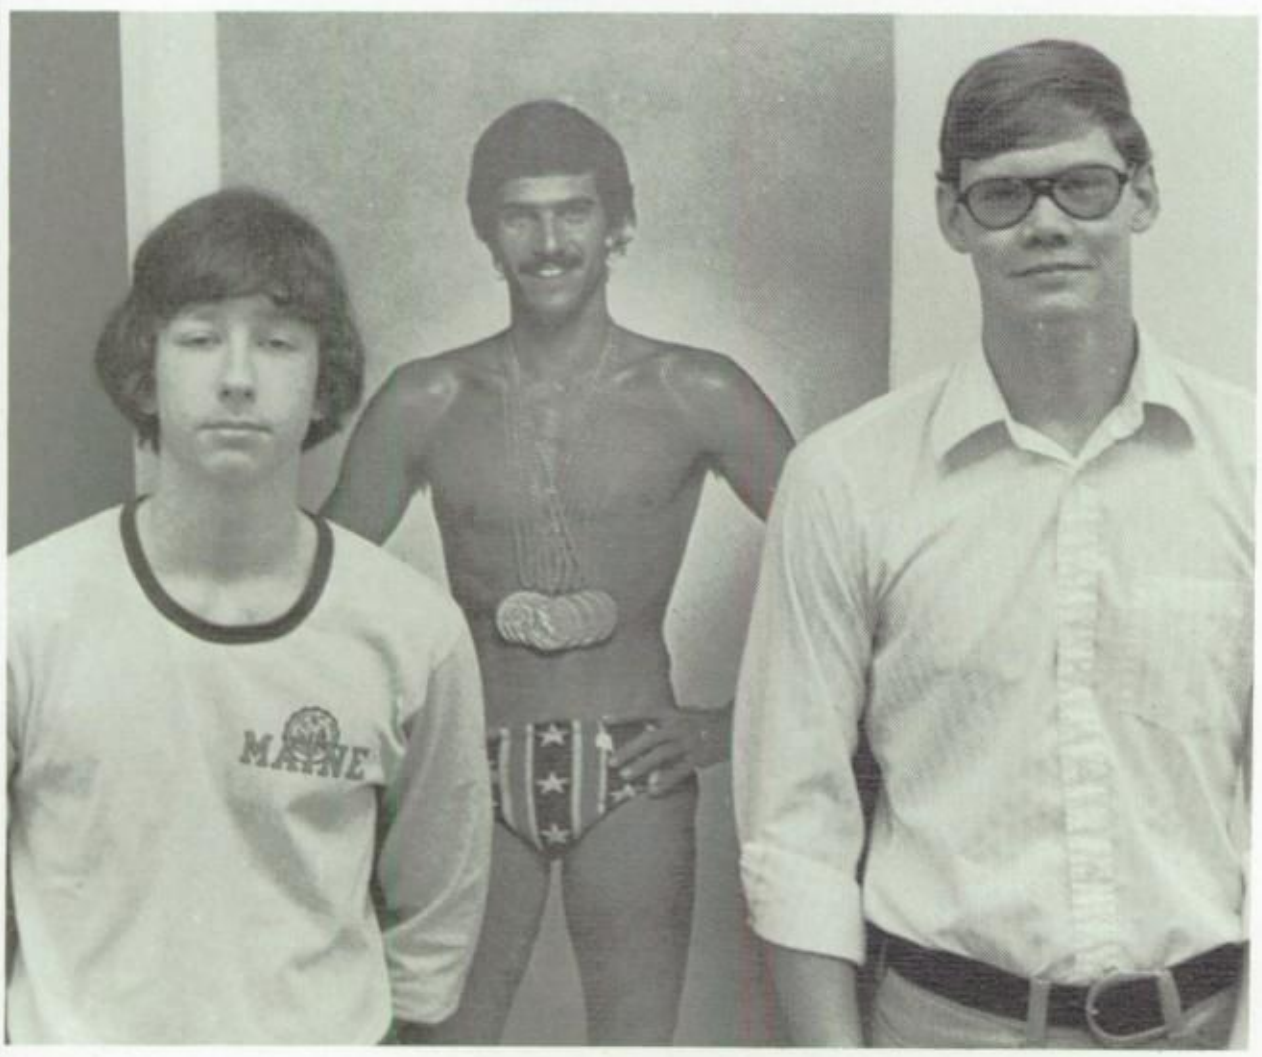
NRA



MAINE

A BASKETBALL TEAM

BEGIN by selecting the best 13 candidates available (preferably giraffes, but gazelles are acceptable). Shave heads. Mix well.

COMBINE common sense, good luck (gum behind the ear will do), skill, practice, desire.

ADD this to the first ingredient and work well for 12 weeks, testing often. (Some like to add The Lord's Prayer).

IF this recipe fails occasionally "don't worry because the sun will come up tomorrow" and "as long as you please the guy in the mirror" you're OK.

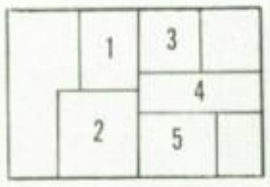
FRESHMEN EXECUTIVE COMMITTEE:
Lori Parker
Paula Graneto
April Woodworth



1/ The Aircraft Engineering classes help prepare Dave Fowler for this new and promising field.
2/ Dan Dull is able to learn the trade of commercial cooking and gain the experience of operating his own restaurant.
3/ Al Conzett refinishes an old car of his, an opportunity he never would have had before.
4/ Late in June this news article in the vindicator described Rick Shook's national achievement.
5/ Ken Kreps enjoys a conversation with Mr. Selby who keeps in touch with our students at the vocational school to make them still feel a part of the Boardman High School student body.

mahoning joint vocational school — boardman division

GOLD MEDAL WINNER—William (Rick) Shook of 6888 South Ave., Boardman (center), proudly displays the gold medal he won in diesel mechanics in the United States Skill Olympics in Tulsa, Okla., Wednesday. Shook arrived home Friday with Richard Soltis (left), his adviser at the Mahoning County Joint Vocational High School, and was greeted by his mother, Mrs. Roy Shook. Shook was the only junior to win a gold medal in the national competition.

THEN

"The philosophy of our schools is to help the child to understand himself and his environment in the great stream of time, to realize that the past is the parent of the present, and to help the child become fully aware that he will be the parent of another present time and that, as such, his life and his acts are important."

As Superintendent of the Boardman School System, Grant F. Kibbel encourages these objectives to be carried out to their fullest extent by every member of the faculty and administration. To Mr. Kibbel insuring the future happiness and success for all students in the Boardman area is the main objective of education.

superintendent and board of education

Education is the development of the total man — the total human personality. The education policies of Boardman's Board of Education recognize this and try to provide the means which benefit the whole student body. The members are seldom acknowledged for their untiring efforts and should be lauded for the hard and successful work they do. Members of the Board are: *SEATED:* Warren P. Freed — President, Dr. Arthur G. Nicolette, William E. Fowler, Leroy E. Olson, Erma Randall — Clerk-Treasure. *STANDING:* John MacDonald — Director of Media Services, Morris L. Kirk — Administrative Assistant in charge of Curriculum, Howard Cailor Jr., — Vice-President of Band, Grant F. Kibbel — Superintendent, John L. Hart — Administrative Assistant in charge of purchasing.

administration

Administration: SEATED Richard Selby — Principal. *STANDING:* Thomas Shook — Assistant-Principal, Karen Dennison — Dean of Girls, and Assistant Principal — Robert Vaclav, Robert Thomas — Director of Guidance.

Again the English department has undergone a major overhaul. Introduced this year is the cluster program for students at the sophomore through senior levels. This program is intended to allow the individuals for a period of time, to pursue a subject of interest to him while independent of the sometimes restrictive classroom situation. It is fo ːen that 10% to 20% of the students will be participating in this program. It is hoped that these new additions to the department will be of benifit to all students.

With the ever increasing amount of knowledge in the many scientific fields, it is necessary to ensure that the Science program is expanded to meet these rapid advancements. Along with offerings in General Science, Biology, Chemistry, Earth Science, and Physics, the Science Department has firmly established the beginnings of an Astronomy program. Through the acquiring of scientific knowledge, the student will be able to use this to help him better understand the universe.

In order to prepare the student to be proficient in all the aspects and levels of mathematics, the Mathematics department has made many revisions in the program.

Consumer Math is offered to provide seniors with some degree of practical application of math. A New computer training program and new calculating equipment have also been provided for along with the usual courses in Algebra, Geometry, and Calculus. The I.S.A. had also become an integral part of the department by enabling students to pursue their interests in math at their own speed.

It is the goal of the members of the Social Studies Department to instill in their students an awareness of their heritage, and the history of the world around them. In an attempt to achieve this goal through the study of World and American History, World Geography, Problems of Democracy and Government. This year the division of P.O.D. into four nine weeks courses, proved very successful. To better understand themselves and the society of which they are a part, courses in Psychology and Sociology are also offered. Teaching a foreign language is not an easy task, for the students need not only a grammatical background but cultural aspects also. Therefore the language department has sponsored a ten day tour to Mexico for Spanish students and has initiated a special independent study program. The students in a language course also have access to the most advanced electronic language

lab in the area. The ability to speak a language fluently is achieved by these methods.

Both the instrumental and choral departments are concerned with providing a broad understanding and appreciation of music. For the first time, a music major is being offered. Music theory, history, and literature along with more individual instruction are steps in achieving the knowledge and appreciation that the department wants to develop. More ensemble groups were organized giving students a better chance to improve in their field. With such efforts by the departments, the students are gaining a better insight into the music world.

The fields of Fine Arts, Crafts, Graphics, and Photography combine to form an art course which allows the student to study a wide range of art techniques. Styles are studied and an emphasis is placed on an interplay of the interpretation of ideas into visual art forms. A major can be earned in this area that has many introductions to career and professional possibilities.

To date, there have been 25 mini-courses funded at Boardman. Each one keeping these goals in mind: to open new channels of student-faculty communication, to

provide the faculty with professional development and enrichment experiences, to provide students with opportunities to initiate elements in their own learning program, and to bring about cooperation in initiating and conducting high-interest, short-duration, academic and non-academic mini-course programs.

During the 1972-73 school year the Boardman High School employed six tutors. These are all certified teachers and have further orientation for tutoring. They cover all academic subjects, learning and I.M.C. aids, and spend one hour a day, five days a week with individual students. Others who must have home instruction due to their inability to attend school are handled in this program also.

During the junior and senior years, the business education major may decide to specialize in four different vocational areas, D.E., COE, IOE, and Senior IOE Steno Program. This class is operated as a real office for 3 hours, with the flow of work simulating a production line, and the girls perform the different office jobs needed to run a "real life" large corporation. Staff meetings are held and decisions are made to solve critical situations.

The Business Education Department offers a year-round job placement service, both part-time and full time placement with local firms for the qualified business students.

This year the Home Ec. and Industrial Arts Department grew in popularity among both boys and girls. In the field of Home Economics a chef's class was offered again for senior boys as well as the traditional sewing, cooking and homemaking courses for girls. In Industrial Arts the Woodworking I-IV, Plastics, and Graphics were open to girls. Also Electricity and Metal classes were offered. More and more students have become interested in these fields which can provide an outlet for their creativity.

The Physical Education and Health Department has continued in its expansion to include more and a greater variety of sports that can be offered to the students. The gym has become more than just a place where students and teachers can improve their bodies. The Health classes try to keep up and avert current problems that face the students.

We have the scholarships. You have the students.

Army ROTC will award over 1000 four-year scholarships for school year '73-'74. These scholarships cover tuition and other academic expenses. They also pay the student $100 each month of the school year.

Army ROTC classes require only three to five hours a week. And your students can choose from over 290 colleges and universities. Let's help 100 deserving young men and women get a college education. Applications are accepted from September 1 through December 31. For more information, write Army ROTC, Youngstown State University, Youngstown Ohio, 44503.

No matter who you were or what
you were, you somehow got together . . .
laughing, crying, loving, exploding —
in your own way.
But nothing lasts forever.
You went your way and they went theirs
The memory will be there —
Even if you're 10,000 miles apart
The memory that once you were . . .
friends . . .
